RESILIENCE AND EMPLOYABILITY SKILLS TRAINING (REST)

Resilience and Employability Skills Training (REST) is a structured training program for all students. REST will provide you with skills training framework that you can take with you to further studies or careers. It is a tool to analyse, record, reflect on and demonstrate the skills you gain throughout your candidature, be that through structured training activities or the everyday learning that happens throughout your studies.

REST

RESILIENCE AND EMPLOYABILITY
SKILLS TRAINING

RESILIENCE

RESILIENCE SKILL SET

Self - Awareness

The ability to pay attention to your thoughts, emotion, behaviour, and physiological reactions.

Self - Regulation

The ability to change one's thoughts, emotions, behaviour, and physiology in the service of a desired outcome.

Mental Agility

The ability to look at situations from multiple perspectives and to think creatively and flexibly.

Strengths of Character

The ability to use one's top strengths to engage authentically, overcome challenges, and create a life aligned with one's values.

Connection

The ability to build and maintain strong, trusting relationships.

Optimism

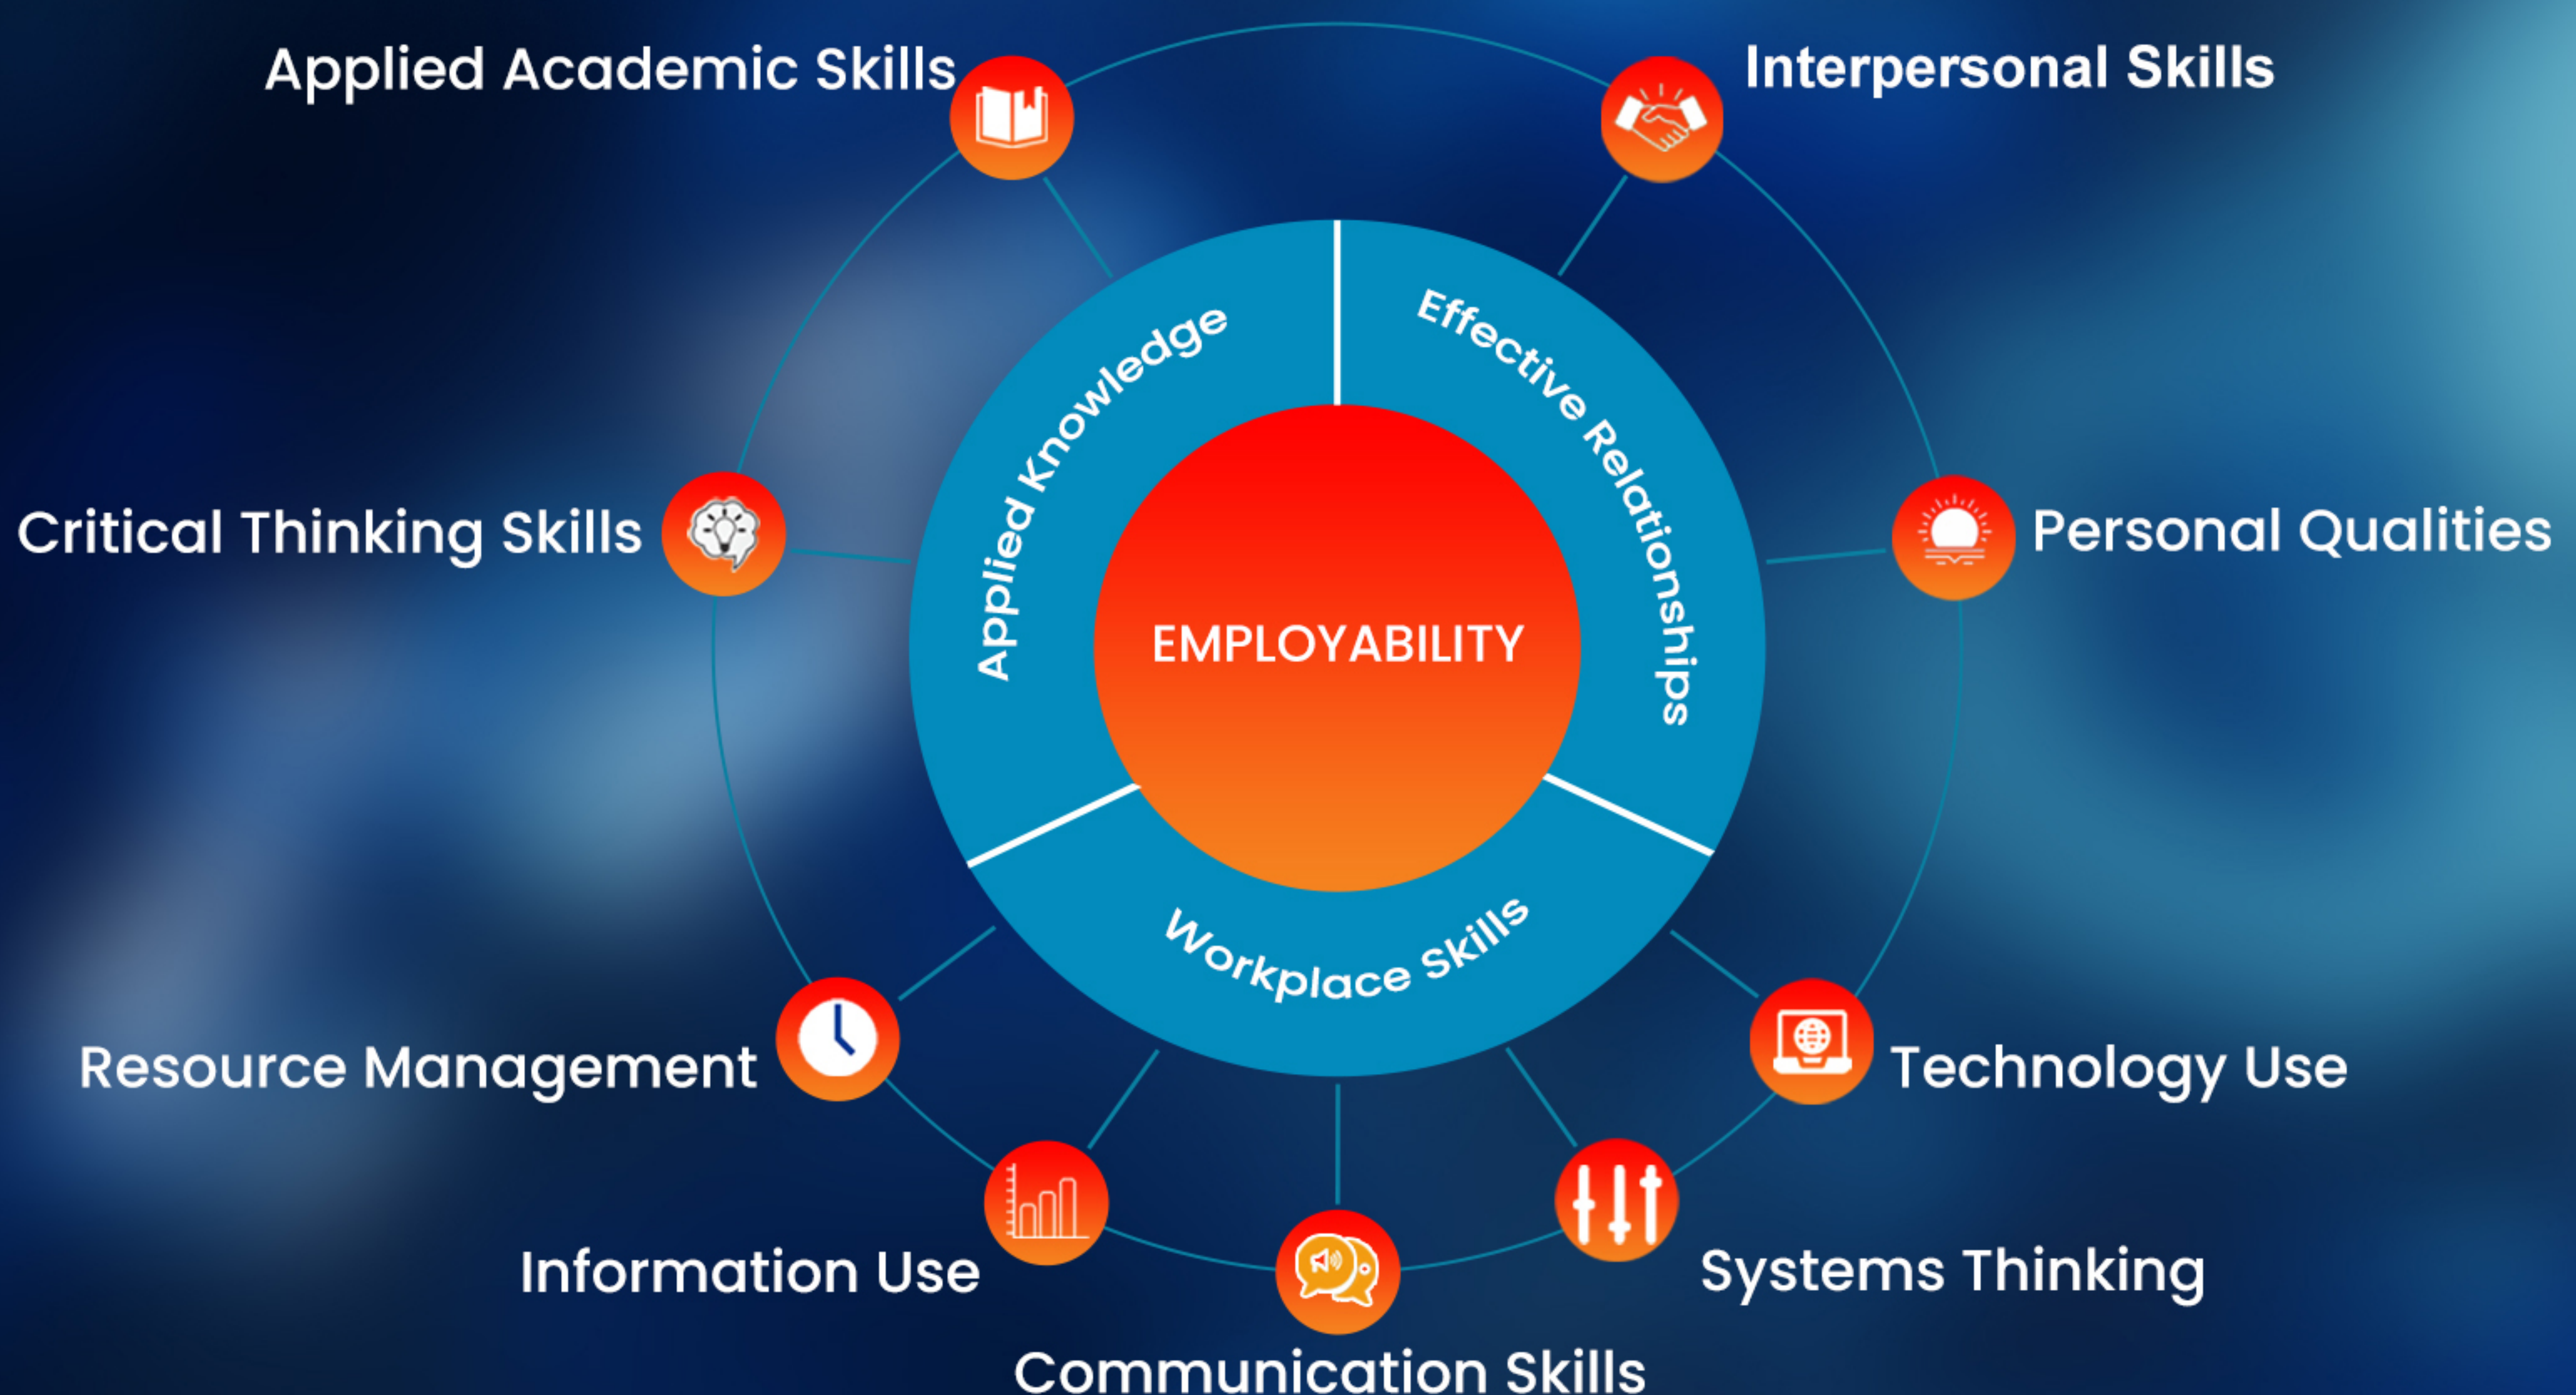

The ability to notice and expect the positive to focus on what you can control and to take purposeful action.

EMPLOYABILITY SKILLS

Employability skills are the soft skills that help to make you stand out from other candidates aiming for the same job with similar academic qualifications. These skills are not clearly illustrated in job descriptions but they are vital to possess in order to secure a role where the employability skills match the job profile. Employers favour candidates with a wide range of employability skills to complement their job-specific skills and study.

Academic qualifications and good marks are not the only way to successfully engage at any institute. You should also gain experiences to enhance your employability skills, as these experiences will also provide you with skill examples for your job applications.
